A NEWSPAPER DEVOTED TO THE INTERESTS OF EASTERN KENTUCKY.

ONE DOLLAR PER YEAR IN ADVANCE.

Volume III.

Jackson, Kentucky, Friday, January 29, 1904.

Number 16.

BRIEF AND TO THE POINT

NEWS ITEMS GATHERED IN THIS AND ADJOINING STATES.

General Collier Is Hurt at Lancaster.—Lawyers and Doctors Hunted Up For Not Paying License—Man Indicted For Killing Horse.

Lancaster, Ky., Jan. 25.—General Daniel R. Collier, pension agent for Kentucky, died suddenly at the Lancaster sanitarium, Louisville, where he has been going frequently to be treated for rheumatism. General Collier on his arrival at the institution Saturday complained of pains in his chest. When a nurse called to inquire as to his condition she found him dead. General Collier was a distant general under Governor Bradley and held the same office under Taylor, and he was in charge of the Taylor troops at Frankfort during the stormy period that followed the assassination of William Goebel. He served as surveyor of the port of Louisville during General Harrison's administration. The funeral took place at Lancaster.

Bradley Honored.—Frankfort, Ky., Jan. 25.—The house, an overwhelmingly Democratic body, paid former Governor W. O. Bradley the high compliment of inviting him to address that body. The ex-governor was received with applause and his speech, which was from a patriotic standpoint, was loudly cheered. Mr. Burns of Henry county offered a joint resolution, inviting William Jennings Bryan to address the legislature on February 2, the anniversary of the death of William Goebel. It was adopted. A resolution to adjourn February 3 and hold Goebel memorial services was also adopted.

Safe-Blower Caught.—Lexington, Ky., Jan. 25.—Sam Haughman, colored, was detected in blowing the safe in the ticket office at the Louisville and Nashville railway. He had demolished desks and scattered tickets and papers over the floor and was placing blasting powder in the safe when detected by J. W. West, ticket agent. Haughman jumped through a window, West firing at him. The police caught Haughman. The machineist who opened the safe said the entire building would have been demolished had the fuse been lighted.

Held For Horse Murder.—Charleston, W. Va., Jan. 25.—H. W. Blake, a blacksmith of Sissonville, this county, while shoeing a horse in the barn, was enraged at the animal because it playfully slipped him on the hip. Seizing a heavy hammer he struck the animal over the head, fracturing its skull, from which it died. Blake is now held under bond to answer to an indictment of the grand jury. Crimes of this character are punishable under West Virginia statutes by a penitentiary sentence of from one to five years.

After Professional Men.—Lexington, Ky., Jan. 25.—City license inspectors C. W. Miller called 52 summonses to be issued against local attorneys for failure to pay license fees, and Monday he had 49 issued against physicians. He will go after insurance agents on Tuesday and other lines of business will be taken up in rotation.

Diamond Fields in Kentucky.—Portsmouth, O., Jan. 20.—A company of capitalists was formed here to develop the diamond fields discovered some three months ago by Mr. M. E. Bryant of the Kentucky Mining and Development company in Elliott county, just across the river. Oil and coal have also been discovered on the 600 acres leased by the company.

Want Senator Hanna.—Frankfort, Ky., Jan. 25.—The senate concurred in the house joint resolution inviting Senator Marcus A. Hanna of Ohio to address the general assembly of Kentucky. By a previous

resolution Senator Gorman of Maryland has been invited to address the legislature.

Bishop Dudley Dead.—Louisville, Ky., Jan. 25.—A telegram received here announces the sudden death in New York city of Bishop Thomas U. Dudley of the Episcopal diocese of Kentucky. Bishop Dudley, with his wife, has been at his mother's home in New York city for several days.

Fear Flood Damage.—Owensboro, Ky., Jan. 25.—The Ohio river is continuing to rise at the rate of two inches an hour. The entire city is covered with swiftly moving ice floes. The river men and farmers in lowlands are very apprehensive of damage.

Tennessee Republicans.—Knoxville, Tenn., Jan. 20.—Chairman Horches of the republican state central committee has called a convention of republicans for April 7 at Nashville to select delegates-at-large to the Chicago convention.

Lee Turner Acquitted.—Middleboro, Ky., Jan. 21.—Lee Turner, proprietor of the "Quartermaster House," who was charged with killing Deputy Sheriff Charles Cecil in a famous battle, was acquitted by the jury.

Third of Town Flooded.—Wheeling, W. Va., Jan. 25.—Fully one-third of the houses in the city were wholly or partially inundated, and the sharp fall in temperature has caused a great deal of suffering.

For a New Capital.—Frankfort, Ky., Jan. 21.—The house, by a vote of 91 to 1, passed a bill appropriating a million dollars for a new state capital building.

No Arrests in Bedford Mystery.—Bedford, Ind., Jan. 26.—Officials here are anxiously awaiting the developments in the mystery surrounding the death of Miss Sarah Schaefer, subsequent to the return of Helger from Bloomington and Chief of Police Russell and Sheriff Smith of Bedford, who are reported to have left Louisville for this city. Mayor Smith said: "We have no evidence which justifies the arrest of any one yet, and so far as I know no arrest will be made soon."

May Investigate Investigators.—Kansas City, Mo., Jan. 26.—If the grand jury that has been investigating charges of hoodlums made against the board of education of Kansas City, Kan., fails to find indictments, the board will be exposed and another grand jury called. Although it was announced last week that 15 indictments were to be voted, it was later declared that some members of the grand jury were disinclined to return true bills.

Baked Baby in Oven.—Lawrence, Wis., Jan. 26.—While Mrs. Edward Smith was chopping wood her daughter, five years old, placed a baby brother in a hot oven, closed the door and baked the baby to death before the mother returned. The oven had been heated for baking.

Had Great Progeny.—Denison, Tex., Jan. 25.—Mrs. N. C. Hargis, who died here at the age of 86, was the progenitress of 17 children, 64 grandchildren and 165 great-grandchildren.

This is the best remedy in the world for a gripe, coughs, colds and whooping cough and is pleasant and safe to take. It prevents any tendency of a cold to result in pneumonia. For sale by Day Bros. Co.

TOWN SWEEP AWAY.

Death Follows in Wake of Furious Tornado in Alabama.

Birmingham, Ala., Jan. 25.—The total number of dead at Birmingham as the result of the tornado is 23, six of whom are white. The number of wounded is estimated at 65, of whom about a dozen are expected to die. Relief measures are being taken by the citizens of Tuscaloosa under the leadership of General W. W. Brantley, a former general of Alabama. Pupils from the female colleges at Tuscaloosa are at Birmingham, serving food to the destitute and aiding the injured.

Every business in the village with the exception of a small drug store, was completely destroyed. The tornado struck the village from the southwest and moved a path a quarter of a mile wide through the town.

Hedding, carpets and wearing apparel are scattered for a distance of 10 miles through what was a forest but which is now as clear as if blown out by the wind's blast. Freight cars were torn to splinters, the trucks from them being hurled hundreds of feet from the track. The depot, the hotel, warehouses, 3000 30 homes and storehouses were completely destroyed. Where they stood it is impossible to find even the pillars on which these structures rested.

Bales of cotton which were stored in warehouses were torn to atoms, the fragments of lint lodging in trees, making it appear as though that section had been visited by a snowstorm. Heavy iron safes, the doors of which in some instances were torn from their hinges, were carried away by the force of the wind.

A young clerk employed by W. P. Miller, heading the terrible rushing of the storm, let himself into a well in the center of the store. He had no sooner found his place of safety when the store was completely demolished. He was drawn out unharmed.

Railway Traffic Blocked.

Parkburg, W. Va., Jan. 26.—The lower parts of Parkburg are under water. This includes the business part of the town almost up to Third street, while among the residence parts, Riverside, Beechwood and the South Side, are pretty well inundated. All the public buildings available are occupied by persons from the flooded districts, and several hundred persons were driven from their homes, while many are living in second stories of houses that are partly under water. Business houses and factories are flooded. Railroad traffic on the Ohio river division of the Baltimore and Ohio railroad to the north and on the Little Kanawha railroad is entirely suspended.

Grand Circuit Dates.

Cleveland, O., Jan. 21.—The annual meeting of the grand circuit of the Grand Circuit trotting races was held here. Nearly all the time of the two sessions was given up to hearing the request and the discussion that the circuit be started a week earlier. The following date were decided upon: Detroit, July 18-23; Cleveland, July 25-30; Buffalo, Aug. 1-6; Empire City, Aug. 8-13; Brighton Beach, Aug. 15-20; Headville, Aug. 22-27; Providence, Aug. 29-Sept. 3; Hartford, Sept. 5-10; Syracuse, Sept. 12-17; Columbus, O., Sept. 19-24; Cincinnati, Sept. 26-Oct. 1; Memphis, Oct. 17-22.

Tug Sinks, Crew Rescued.

Lorain, O., Jan. 25.—In an effort to save some of the drifts swept out into the lake by Friday's flood the tugboat "Cascadia" of Lorain, Ohio, was sent out. The tugboat was sunk about 1,000 feet off this port after a severe battle with a heavy wind and snow storm and great ice floes. The 13 men of the crew were rescued from an ice pack where they had jumped when the tug began to sink. There is about 40 feet of water where the tug sank and an effort will be made to raise it when the weather clears. The tug is valued at \$20,000.

Daughters of Confederacy to Meet.

Nashville, Tenn., Jan. 22.—Mrs. A. T. Smith of Charleston, S. C., president of the United Daughters of Confederacy, and Mrs. A. W. Oakley of St. Louis, president of the Missouri district Daughters of the Confederacy, have notified Mrs. John P. Hickman of this city, secretary general, that the annual convention of the United Daughters of the Confederacy will be held in St. Louis, Oct. 4 to 8, 1904, and Oct. 7 has been designated Confederate day at the Louisiana Purchase exposition.

Boat Sunk; Three Drowned.

Cincinnati, Jan. 25.—The ice around Coney Island gave way and sunk the towboat "Adelle" at Brown's Landing, east of this city, together with a barge of coal. Loss \$15,000. Three men employed on the "Adelle," whose names could not be learned, are missing and supposed to have been drowned. The river has been rising rapidly here since Sunday midnight.

Koreans Laid Homes.

Seoul, Korea, Jan. 25.—Korean soldiers and police at Pyenyong, disguised as robbers, have looted all the wealthy natives' houses. Foreigners are growing very uneasy over the condition of affairs. The natives seem to be apathetic. The weather is extremely cold.

Fifty-Six Below Zero.

Duluth, Minn., Jan. 26.—The weather at Pekegama dam, near Grand Rapids, was 57 degrees below zero, by the government thermometer there. At Hibbing it is 42 below and at Tower 45.

Twelve Men Killed.

Johnstown, Pa., Jan. 21.—Twelve men are reported dead and many injured as a result of an explosion at the Cambria Steel company's plant.

JURY HOLDS HARRISON.

Mayor of Chicago to Answer With Others For Inquests Horror.

Chicago, Jan. 26.—After hearing evidence for three weeks relative to the inquest horror and the conditions existing about that playhouse at the time of the disaster, the coroner's jury has returned a verdict.

The following are held to await the action of the grand jury: Carter H. Harrison, mayor of Chicago; Will J. Davis, proprietor in part and manager of the theater; George Williams, building commissioner of the city; Edward Laetlin, building inspector under Williams; William Sallers, fireman in the theater; James E. Cummings, stage carpenter; William Muller, who had charge of the light that caused the fire.

Relation to Mayor Harrison, the verdict of the jury is: "We hold Carter H. Harrison, as mayor of the city of Chicago, responsible, as he has shown a lamentable lack of force, and for his efforts to escape responsibility, evidenced by the testimony of building commissioner Williams and fire marshal Mulvaney. As heads of departments under the said Carter H. Harrison following this weak course has given Chicago inefficient service, which makes such calamities as the inquest horror a menace until the public service is purged of incompetents."

Three Dead, Eleven Hurt.

St. Louis, Jan. 26.—The Denver express on the main line of the Burlington was run into from the rear by a local passenger train while taking water at Harbace creek, about 40 miles north of here, and three passengers were killed, four seriously injured and seven badly hurt. The wreck occurred on a bridge over Harbace creek. The bridge and two cars of the local train and the local engine were burned. The express train was running behind the local train because of the blizzard weather, and had stopped at a tank just after clearing the bridge to take water. Suddenly without warning the local train crashed into the rear of the express train. The light passenger cars of the local train were badly demolished and the bridge was filled with debris, which took fire.

To Honor Naval Hero.

Washington, Jan. 26.—The senate heard further discussion on the question of appointments to office made in the congressional recesses, listened to a speech on the isthmian canal question by Mr. Morgan, and passed a number of bills of a non-political character. As a result of the debate on the isthmian canal question, a resolution asking for specific information concerning the nomination of W. O. Crum as collector of customs at the port of Charleston, S. C., was passed. A resolution asking for similar information concerning the nomination of Brigadier General Wood and other army officers went over. Among the bills passed was one authorizing the erection of a monument to the memory of John Paul Jones.

Will Boon General Miles.

Chicago, Jan. 22.—The Iniquity club, to which prominent Chicago Democrats belong, is preparing to boom General Nelson A. Miles as the man to nominate for president on the Democratic ticket this year. It was learned that a committee of the club has been authorized to arrange for a large room at which General Miles will make the principal address and be hailed as a bona fide candidate for the presidency. General Miles has been invited to attend and has accepted. The date of the banquet has not yet been fixed. The Iniquity club is one of the leading Democratic organizations of the west.

Remains Will Lie in State.

Louisville, Ky., Jan. 25.—The body of Bishop Thomas K. Dudley of the Episcopal diocese of Kentucky arrived from New York, and in charge of an escort of Masons was taken to the Dudley home on Third avenue. The body will lie in state a portion of one day at Christ Church cathedral, the funeral service being held on Wednesday. Bishop Dudley of Missouri will preside at the ceremonies, and among those who will assist him are Bishops Gallor of Tennessee, Francis of Indiana, Peterkin of West Virginia, Burton of Kentucky and Randolph of Virginia.

Shot Jett's Companion.

Jackson, Ky., Jan. 25.—News has been received here of the shooting of "Tickey" Tom Tharp by Matt Sloan in Lee City, Wolfe county. The trouble arose over a card game. Tharp was shot in the arm and through the body and has small chance to recover. He was a jail companion and an important witness in the trial of Curtis Jett, since convicted of the assassination of J. D. Marcus and Jim Cockrill.

Korea's Declaration.

Paris, Jan. 26.—A dispatch from Seoul, Korea, announced that the Korean government had made a formal declaration of neutrality in the event of war between Russia and Japan, and later it was announced from Seoul that a cablegram had been received there from the Korean minister at St. Petersburg, saying that Russia disapproved of Korea's declaration of neutrality.

Died in Sweetheart's Arms.

Anoka, Minn., Jan. 26.—A party of young people among whom was Lewis Flecker, a young farmer, started on a sleigh ride to Haines. The young lady, accompanying Flecker had her arm around him and after a long silence on the part of young Flecker she discovered that he was dead. The coroner decided that death was due to heart failure.

MINERS ARE TRAPPED.

Explosion Locks Two Hundred in Underground Prison.

ALL ARE BELIEVED TO BE DEAD

Hope For Imprisoned Miners Was Abandoned When Body of Leader of Rescuers Was Brought Up, Who Had Apparently Died After Being in the Mine But a Short Time.

Pittsburg, Jan. 26.—Dr. W. H. McCullough of Cheswick, who has been in the mine for two hours, has just come to the surface and told the press representative that, in his opinion, none of the miners who were in the shaft at the time of the explosion is alive. He thinks it will be several hours before any of the bodies can be brought to the surface.

Pittsburg, Pa., Jan. 26.—The belief that many were alive was rudely shattered when the body of Selwyn Taylor was brought to the surface. He had evidently been dead for several hours, and now hopes for the other imprisoned men have been abandoned. The rescuers are being brought out coated with ice, drenched to the skin and unable to walk. They report the dead men scattered all above the other as thick as pine needles. Water is fast pouring into the mine, covering the corpses with a shroud of ice and making the work of rescue almost impossible. After-damp is collecting in quantities.

Pittsburg, Jan. 26.—It is now believed that all of the 180 to 190 men locked in the Harwick mine at Cheswick, by a terrific explosion, are dead. Though cage after cage has gone down into the mine and come up again, but only one miner of all those that went down to work Monday morning has been brought to the surface. The rescued man is Adolph Ginn, and he is still in a semi-conscious condition at the temporary hospital at the rude schoolhouse on the hillside above the mine.

In addition to the miners who were at work when the explosion occurred it is now believed by all of the men of the rescue party, who have come up the 220-foot vertical shaft for a warming and breathing spell, that Selwyn M. Taylor, the Pittsburg mining engineer who plotted the mine and who was the first to reach the bottom after the explosion happened, is also now among the list of dead of those in the mine all are probably dead.

The explosion occurred at 8:20 o'clock Monday morning, and the first warning was the sudden rumble under ground, and then a sheet of flame followed by the deep shaft. Both mine cages were hurled through the tipple, 20 feet above the landing stage, and the three men on the tipple were hurled to the ground. A mule was thrown high above the shaft and fell dead on the ground. The injured men were brought to this city at once, where two of them have died since.

As soon as the rumble of the explosion and the crash at the pit mouth startled the little village, the wives and children of the men below rushed to the scene of the disaster, but to gain no encouragement. There was no way to get into the deep workings. The cages that let the men into the mines and brought them out again when the day's work was done were broken and demolished.

All day long there was a jam of waiting women and children about the mouth of the pit. There were calls for assistance and for surgical aid from the men in charge of the mine, but it was not until 4 o'clock in the afternoon that the first attempt at rescue was made. This was a failure, as the two men who volunteered were driven back by foul air.

There is a light in every cottage in the little hamlet above the pit mouth. There is still a crowd about the mouth of the shaft, but it will probably be hours before the full extent of the catastrophe is known.

Senator Burton Indicted.

St. Louis, Jan. 25.—The federal grand jury returned an indictment against Joseph Ralph Burton, United States senator from Kansas, charging him, on nine counts, with accepting five checks of \$500 each from the Rialto Grain and Securities company while a United States senator, for his alleged services in interfering with the postmaster general, chief postoffice inspector and other high postoffice officials to induce them to render a favorable decision in matters affecting the permission of the Rialto company to use the mails.

To Buy Washington's Sword.

Washington, Jan. 26.—Senator McCome introduced a bill appropriating \$5,000 for the purchase of General George Washington's sword from his grand niece, Virginia Taylor Lewis.

Made Dangerously Ill.

Zanesville, O., Jan. 26.—Mr. and Mrs. Henry Butler and son Harry are dangerously ill as the result of eating dried beef which had been treated with formaldehyde.

King Peter of Servia, according to a report from Cetinje, Montenegro, is prepared voluntarily to renounce the throne and allow the powers to nominate to his successor.

TREACHEROUS MOROS.

American Officer Killed While Parleying With Natives.

Manila, Jan. 26.—It has just been learned that Lieutenant Campbell W. Flako of the Twenty-second Infantry was killed while trying to enter Moro Cotta, in Mindanao, for the purpose of examining the locality. He was accompanied by Private Foy of the same regiment. Lieutenant Flako was shot treacherously, the Moros firing on the party while Major Bullard was parleying with them. More Cotta was not once taken by assault with no further loss to the expeditionary forces. The estimated loss among the Moros is 20 killed.

Rescued by Lifesavers.

Toledo, O., Jan. 25.—Another gorge formed in Maumee bay and at mid-night the water had reached a point higher by several inches than it was at any time Sunday, and was still rising at the rate of three inches an hour. It is one degree below zero and getting colder very fast. Sunday morning the four men imprisoned on the terminal bridge draw and four men on the draw of the Wheeling and Lake Erie bridge were rescued by the crew from the Marble Head lifesaving station. A rope was shot over the bridge with a cannon and the men slid to safety in the breeches buoy.

TORRENT.

Miss Amanda Gilley, of Zachariah,
was visiting friends at Ridgewood Jun-
ction last week.

An epidemic of measles is making the
rounds of our neighborhood Master
Benjamin Jones, the Junction mail
boy, and George the young son son of
H. G. Martau, are the two worst cases.
Mr and Mrs Leonard Barnes, (nee
Baker) were visiting relatives at Bow-
en last Friday and Saturday.

Messrs Henry and Cane Spencer and
Jacob Bush members of Torrent Lodge
L O O F were present at the organiza-
tion of a new Lodge at Filson last Fri-
day night.

Married, by Rev J R Savage, at the
Court View Hotel, Winchester on the
21st inst. Mr Carl Ashley of Ridge-
wood Junction and Miss Ethel Sparks
of Siloam Springs Arkansas. Mr Ash-
ley is the son of C. T. Ashley of the
Junction, and is a young man of good
character and an exceptional
business qualification.

His bride though not known here,
seems to be a charming young woman.
The bridegroom's parents Mr and Mrs
C. T. Ashley and a sister, Mrs A. I.
Moore were the only relatives present
at the ceremony. The young couple
will make their home for a few months
at the residence of the bridegroom's
parents at the Junction. We extend
a sincere wish for a future of marital
bliss and prosperity for the newly
wedded pair.

R. R. Adams of Zachariah, paid a
business trip to Ridgewood Junction,
last week.

Mrs Sarah Williams was in Cla City
last Saturday.

Miss Martha Bush, of Zachariah, was
visiting relatives at the Junction last
week.

Marion Robinson and William Camp-
bell live quit work at the stove factory
at the Junction and secured employ-
ment in the Big Woods timber indus-
tries in Menifee county. Robinson
moved his family to their new home
last Monday.

William Bush Jr was in Lexington
Monday.

Mrs C T Ashley gave a reception on
the night 22nd inst in honor of her son
Mr Carl Ashley and bride. Relatives
and friends present were Mr and
Mrs Earl Ashley, Mr and Mrs A. I.
Moore, Mr and Mrs C T Ashley, Mr and
Mrs Carl Ashley, Miss Ella Proctor and
Mr Clifford Jones. Three brides and
bridesgrooms graced the board with
presence. A daughter and two sons of
the family all having married since
last May.

A small-pox "scare" is again arising
in this section of the county. Albert
Samples, of Little Sinking is the only
one a well defined case of the disease.
He lives about eight miles from here.
David Baker, of Zachariah, was ac-
cidentally shot through the head while
handling a revolver too carelessly 1st
week.

Mr Jett Adams of Zachariah, has re-
turned home from the Berea College to
which Institution he went but two
weeks ago. Small-pox had broken out
and he was thought to have been ex-
posed to it hence his return home.

Coal and Timber Land
Wanted.

Wanted one hundred thousand acres
of coal and timber lands in Eastern
Kentucky, for Cash, for Eastern Cap-
italists. Write to

Willie May, the infant daughter of
H. C. Hurst of this city has been very
ill during the past few weeks and is
not expected to live.

Kash Williams of Stevenson in this
county, a former pupil of the S. P. Lees
Collegiate Institute here has again en-
tered the school. Kash is a promising
young man, having received two
medals in this school; one a scholarship
medal, one which he received last
year in the oratorical contest.

New Drug Store.

Dr. O. B. Swauger and Dr. W. P.
Hogg have opened up a drug store in
the Carwell Building under the name
of the Jackson Drug Company. T. E.
Gale a Registered Pharmacist, of Lou-
ville, is in charge.

Odd Fellows Lodge at Hazard

Robert Thomas has been commis-
ioned by the G and L dge of Kenta ky to
institute an Odd Fellows Lodge at
Hazard consisting of about thirty
members. He will get started Sat-
urday and will be accompanied by S. H.
Stidham, Will Ferraole and others of
this place.

John Dean,

Foundations
Stones
Pillars.

INSTITUTE ITEMS.

Prof. J. F. Lukens, of Lebanon, O.,
under his management thorough and
efficient work is assured. He has al-
ready nearly fifty pupils enrolled in
this department.

Miss Allen Drake of Ashville, N. C.
a graduate of the Normal Training
School, of that city and Miss Mary
Ashby of Parkville, Mo. and a gradu-
ate of Park College, have charge of the
Collegiate and Intermediate depart-
ments. They were connected with the
Institution during the past five
months and have shown great efficien-
cy in the work.

The Department of Music is in charge
of Miss Evelyn Byrd Ray of Edmonston
Ky., a graduate of the College of Music
at Cincinnati, O. Already the work in
this department shows remarkable and
promises to eclipse in results, any
previous term of the school.

Literary and debating societies have
been formed in which the young peo-
ple of the school may participate and
which will prove to be helpful auxil-
iaries.

Preparations are now being made
for appropriate exercises on Washing-
ton's Birthday. This will consist of
musicals, recitations, declamations, etc.
There will also be a declamatory con-
test between the young men of the
school and a contest between the young
ladies for the best recitation, in both
of which contest medals will be a-
warded.

The work of the Lees Collegiate
Institute at this place is meeting the
favorable approval of all patrons and
those interested and at no previous
term has more rapid progress been
made. In every department of the
school the work that is being turned
out bespeaks the excellence and ability
of the instructors. Able teachers are
found at the head of each branch in
the school, teaching a executive as well
as mental ability and their efforts are
being manifested in every department.
There are now over three hundred pu-
pils enrolled, surpassing any previous
enrollment.

WATCHES

Of the best American

TRY US ON WATCH REPAIRING

Judge Miller reports that the illegal
sale of whiskey which has been carried
on on Hunting Creek in this county for
the past ten or twelve years has been
stopped. He further says that the
neighborhood was never more order-
ly than now. Let some other neigh-
borhood try the same method and let
the officers of the law do their duty
and the Blind tigers will soon be a
thing of the past in this county.

Attorney J. C. Back and wife of
this city went to Cincinnati and Gar-
rington Monday returning Wednesday.
Mr. Back went to try an injunction pro-
ceeding in the Federal Court before
Judge Cochran in the case of Paul
Seimster of Cincinnati against S. E.
Tandee of this county. The matter is
controversy is a lot of fog about twenty
five hundred, that the defendants have
removed from a large boundary of land
claimed by Seimster, for which he
seeks to recover ten thousand dollars
in damages.

Homeopathy

Dr. Hutchings of Carlisle, Kentucky,
a graduate of the College of Homeop-
athy, (Chel-n-t Cho, arrived in
Jackson Tuesday night with a view of
locating here. While we have several
physicians in our town already, we
have none who are products of this
special branch of medical science.
We hope that the people will show to
Dr. Hutchings a kindly welcome; that
he may make this his permanent home
and find his work both pleasant and
profitable.

Normal and Business
Department of

Lees Collegiate Institute

WILL OPEN

January 4th, 1904.

Students pursuing Normal or Business Courses may take
advantage of the Academic and Collegiate Departments with-
out extra charge. Diploma will admit holder to any college
of the land. Tuition and Board reasonable.

Call on or address,
M. L. GIRTON, Principal.
Jackson, Kentucky.

The taking of depositions in the
Adams-Roberts contest case was com-
menced at this place Monday, Jan 25.
Mr Adams is represented by Hon.
James Andrew Scott of Frankfort, one
of the most distinguished lawyers in
Kentucky, while Mr. Roberts is re-
presented by Pollard and Repwine of this
place.

It will be remembered that James P.
Adams of Mangoffin County, was the
republican nominee for Commis-
sioner of the Public Lands in the twenty third
judicial district composed of the
counties of Magdlin, Breathitt, Wolfe,
Lee and Bell; that he was opposed by
James Roberts of Lee County who was
the democratic nominee. The contest
for the office was a hot and spirited one
and when the election came and passed
it was found that the vote in the race
was very close.

On the face of the returns Adams
was elected by a safe majority, but
these returns, are said to have been
manipulated and changed in the Oakdale
precinct so as to give Roberts a majori-
ty. Here the certificates held by the
election officers show that Adams re-
ceived one hundred votes and Roberts
one hundred and sixty-four, but they
appear to have been changed so as to
give Adams only ten votes and Roberts
two hundred and sixty-four, and here
is another discrepancy. The cipher in
the units place in the 100 indicating
Adams vote, was erased, giving Adams
nly ten votes; and as the records ap-
pear, the 164 indicating Roberts vote
was changed to 264, making a total
vote of two hundred and seventy-four,
when there really were only two hun-
dred and sixty-four votes cast in the
precinct. This is a slight discrepancy
back in mathematical skill. This is
only one of the many appearances of
fraud; only one of the many means
used by the political machinists in
thwarting and handicapping the will
of the people.

We do not mention the open fraud
that was perpetrated in the Froze
precinct; how when there was no stig-
of disturbance, and the people were
voting smoothly, four soldiers were
dispatched there, and stationed around
the voting house, and kept on guard
until three o'clock next morning; how
the name of the candidate for magis-
trate in that district who received a
majority of fifty-three votes, was clearly
lost and was not recognized when
the certificate of election was awarded.
We refrain from referring to these
things, fearing we may increase the
blush of shame which must undoubt-
edly be burdening the faces of these
evil perpetrators of frauds.

THE LITERARY WORLD.

One of W. B. Yeats' Jokes—John O'Leary
was killed at Home.

[Special Correspondence]
New York, Dec. 21.—W. B. Yeats, the
Irish poet and revivalist of interest in
Irish Gaelic, who is at present in
America delivering a course of lectures,
is intensely opposed to what he consid-
ers the "old fogey" traditions of the
university at Dublin, says Harper's
Weekly. During a recent visit to Yale
Mr. Yeats was asked by one of the
instructors if he knew the age of a cer-
tain venerable professor at the Dublin
Institution. "No," responded the poet;
"I don't know precisely that, but I have
heard that the combined age of all the
professors at the Dublin university is
1,500,000 years."

Thomas Nelson Page, the novelist,
has a great liking for colored people,
and they in turn like him.

"Moses Stebbins is a good friend of
mine," Mr. Page said at a dinner party.
"One morning I met him on horse-
back, and he was chuckling."
"What's the joke, Moses?" I said.
"The joke is, sah," he answered, "dat
Ah've jes' won a quabtan from dis yab
boss."
"How did you win it?" I asked.
"Ah won hit dis away: Iah was n
white papah on he road, an' Ah see to
de how dat Ah bet n quabtan he gwine
ter shy at de papah. De boss he take
de bet, sah, an' den he lose hit, for de
foot animal shied like de debil."
"Well, you won the bet, Moses, but
you'll have some difficulty in collect-
ing it," said I.

"Oh, no, sah; no, sah. No trouble
'bout dat. Hyah, hyah, hyah! Ah's
gwine ter collect de bet all right."
"How on earth will you collect it?"
"W'y, tomorrow de masher he's
gwine ter gimme a doilah ter buy feed
fo' dis yer nag. Well, Ah jes' keep
out er de feed money de quabtan w'nt
im owed me."
"Tricky!" Tom Sharp was shot and
wounded at Lee City last week. The

John H. Blanton has accepted a position at Lee City and has moved his family there.

SHACKELFORD TROY

Wednesday afternoon at two o'clock at the D. M. story of the S. P. Lees Collegiate Institute in Jackson, Miss Emma Troy of this place was married to Mr Arthur Shackelford, Rev. Mr. Harding of Winchester officiating. It was a very quiet wedding and only some of the closest friends were present. The groom arrived at 11:30 on L. & E. Train accompanied by Rev. Mr. Harding and Senator A. S. Bennett of the seventh district. Those present besides these were, William Cope, Matt Crawford, Misses Mary and Annie Irvine of this place and the father and sister of the bride.

They left on the 2:25 train for Lexington from which place they will probably take an extended bridal tour.

It is with pleasure we chronicle this event. No more worthy couple than they have within our notice, have been joined in wedlock and no more promising future could be given to those favored by the conquest of love.

Mr. Troy has in his home in Jackson since first he merged into early womanhood, though she is not a native of this town, and it can be truly said of her that she has acquired the citizenship of a host of people. Her life in Jackson has been one continued effort of rare accomplishments, and while she was not proud to laudit, she is proud only on account of their existence. It can be truly said of her that her superiors cannot be found in culture and refinement, her individual social traits are surely worthy of emulation, in disposition, she is gentle and kind and commanding. She was the extra in such a full use of those who knew her, and her departure from Jackson the people cannot but feel a loss.

The groom is not so well known here although he attends a law here several years ago. He is now employed in the United States service as naval clerk between Cling and Chattahoochee and has the reputation of being one of the most efficient in the service.

We join their many friends in hearty congratulations, wishing them every success and happiness in life.

W. D. Howells gives some charming reminiscences of the late Bret Hart in the Christmas Harper's relating to a week's visit Hart paid him when the latter first came west from California. Mr. Howells thus describes the author of "The Luck of Roaring Camp": "He was then, as always, a child of extreme fashion as to his clothes and the cut of his beard, which he wore in a mustache and the drooping side whiskers of the day, and his jovial physiognomy was as winning as his voice, with its straight nose and fascinating forward thrust of the underlip. Its fine eyes and good forehead, then thickly crowned with the black hair which grew white early, while his mustache remained dark."

As one could not help seeing, thickly plaited, but after the first glance one forgot this." Although he was one of America's most successful authors, Hart died a very poor man. His estate was valued at but \$2,000.

John Oliver Hobbes (Mrs. Craig), who has won fame as novelist and playwright on two continents, is an American by birth despite the fact that for years her home has been abroad. Her literary bent is accounted for in part by the fact that Charles Boston was her maternal uncle. She has a handsome summer home on the Isle of Wight, and her son, John Churchill Craig, is at Eton. Her first novel, "Some Emotions and a Moral," pleased the first publisher to whom it was sent, but he did not bring it out because it was not so long as the books he usually issued, and Mrs. Craig did not see her way toward making it any longer. The second publisher wanted the title changed, and he did not like the pen name chosen by the author, John Oliver Hobbes. She said in effect, "I won't change the title, and I won't change the pseudonym, and if you publish the book those two things will be published with it." Her insistence upon using a pseudonym at all is thus explained: "She was a very young woman at the time, and she felt that if the critics thought the book was written by a woman, and a very young woman at that, there would be, metaphorically, gnashing of teeth." Among her plays "The Bishop's Move" is best known.

It is now plain why Mark Twain fled to Italy. "The National Mark Twain association" has been formed to sing his praises and make Hannibal, Mo., his boyhood home, a literary shrine. Ten thousand fair women are to do the singing.

BERTHA MILDRED NIXON.

DEAD IN THE SHELL.

Common Sense Thoughts on Hatchable and Unhatchable Eggs.

Chicks dying in the shell is a thing that prevents 100 per cent hatchings. I can remember back to forty years ago, when I was made about the same average as they do now. I can remember a certain gatepost that I had for a mark when disposing of the eggs that the hens failed to hatch. Breaking the eggs to see what was in them was never thought of then and is not yet, but when it comes to running incubators it is a different thing.

I have seen people hatch 80 per cent and 20 per cent of the fertile eggs and worry over 10 or 20 per cent dying in the shell, yet the same people would perhaps innocently admit that the incubator did better average work on all the eggs than the hens.

There is just this about it: When 80 per cent of the fertile eggs hatch and 20 per cent do not hatch it is evidence in itself that something is wrong with the 20 per cent or they would have hatched also. Why not mix in a little cool reasoning in comparing incubators with hens and do away with the unjustified prejudice? Good incubators equal good hens, but neither can hatch unhatchable eggs. If all fertile eggs were hatchable, then we would simply waste time in selecting strong, vigorous cockerels and hens. There would be no use or sense in selecting fresh eggs; neither would freezing or overheating them before they were put in the machine affect them.

These are stubborn, serious facts, and not a single reader of this paper will dispute them, yet many will continue to throw the eggs that the hens can't hatch at the gatepost and make a post-mortem examination of the eggs that are left in the incubator, and, will more, they may unconsciously select eggs for the hens and fill the incubator with most any kind to make up the numbers.—Commercial Poultry.

Typical Bronze Turkey Cock.

The above splendid specimen of Bronze turkey was second runner at Madison Square Garden poultry show, New York, last winter, exhibited by Mr. George W. Salisbury. Forty pound Bronze males are not rare at the lead.

OVER FORTY POUNDS.

ing shows. However, males that are so much above standard weight rarely possess such rounded form in all sections. The great fault in most large poultry is coarseness. The medium sized birds of the breed, as a rule, are nearer the ideal form. We present the above as one of the most symmetrical males shown above forty pounds. The size, general form, character and color points of this typical Bronze cock are worthy of imitation on the best turkey ranches and where show quality is sought.—F. Sewell in Reliable Poultry Journal.

Grit.

It is necessary for all chickens young and old, fowls, turkeys, ducks and geese to have plenty of grit. Always have plenty of it where they can help themselves. It is not a good plan to mix it in the mash food excepting for young chicks, and for them use quantities of coarse sand. But this is only made use of where they are growing broiler ducks and they stuff and feed them so hard to make them grow fast that it is necessary to mix this kind of grit with their feed to enable them to consume enough to grow to unusual size in a very short time. In dry chick food or in dry scratching food or with grain foods of all kinds no harm or injury will come of mixing some grit amounting to for the chickens will pick out the grain from among the grit and only take what grit they need or wish to have. Grit is the only teeth that poultry have. They grind all their food with the grit and cannot exist for any length of time without it.

Beats For Laying Hens.

To make nests to prevent hens from eating eggs take three boards, two four feet wide and one two feet four inches wide. Nail these together for floor, putting the twelve inch one in the middle. Make two rows of nests, 14 by 14, on the outside boards. Make lids for these nests, putting hinges at the upper side of the nest. Cover the space between the rows of nests with boards upon which you fasten hinges. This makes a building similar to a double corner, with driveway between. From this make a small hole just large enough for the hen to go through into the nest. It being rather dark in these nests, she will not stay longer than just to deposit her egg, for which purpose she thinks it is a nice, secluded place.

Guinea Meat.

The flesh of guinea is generally dark colored, tender, juicy and in flavor equal to the ringneck English pheasant. Many think it more palatable, for the flavor is not so pronounced and there is considerably more of it. The flesh of the white guinea is light in color, and if it is crossed with the Pearl variety the meat of the latter will become nearly as light.

Died In Asylum.

Mrs. Sallie Turner, who was sent to the Asylum at Lexington, from this county several years ago died there last Tuesday.

Gen. D. R. Colyer, U. S. Pension Agent at Louisville, died last Saturday of Angina pectoris. He was about 64 years old and had been Adjutant General of Kentucky, under Governors Bradley and Taylor.

NOTICE!

We have been engaged for the past six years in the mountains of Eastern Kentucky buying and taking up mineral and timber lands for Eastern capitalists. We have at this time completed the larger portion of our work and we desire to say to the people of Breathitt and adjoining counties that we are now ready to take up all our cases in this Judicial District, which has been neglected on account of our work in the coal fields. You will find one in both of us in our office in the Old Harbison Building, during all business hours. Yours very truly,
T. E. COPE
W. N. COPE

Accidentally Shot.

While building a fire in the store of Hurs & Redwine, at Wilbur, Monday, Henry McGuire accidentally dropped his pistol which was discharged the ball entering the young man's back, passing entirely through his body. It is thought he can not recover. Young McGuire is a son of T. G. McGuire, of St. Louis.

Kelly Kash of this place went to Wolfe county Friday where he will spend a few days visiting his father's family.

Laid to Rest.

Charles Patrick Bowling the infant son of Mr. and Mrs. C. N. Bowling, died Saturday evening last at the residence of T. C. Johnson, and was brought to Jackson and interred in the Jewell burial ground Sunday evening. Mrs. Bowling is a daughter of Mr. G. H. Patrick, of this city. She had gone to Lee county, for a short visit, when her baby was taken with a throat trouble and lived only a few days. The funeral services were conducted by Rev. W. W. Powell of the Presbyterian Church at the residence of Mrs. Patrick.

The last services in the series of meetings held here by the Salvation Army was held in the Courthouse Sunday night. The courtroom was packed with a large orderly crowd. For about three hours they indulged in a miscellany of modes of worship consisting of singing with harp, cornet and guitar accompaniments, supplications, exhortations, etc. To the people here the services were interesting. They have a peculiar system of worship which is remarkably strong to people who know so little of them. They appear to be a devout and pious people and their labors here seem to have had a decidedly favorable effect on our people.

It's Up To you.

Dislocated Her Shoulder.

Mrs. Johanna Soderholm, of Fergus Falls, Minn., fell and dislocated her shoulder. She had a surgeon get it back in place as soon as possible, but it was quite sore and pained her very much. Her some friend told her that she had seen Chamberlain's Pain Balm advertised for sprains and soreness, and she asked him to buy her a bottle of it, which he did. It quickly relieved her and enabled her to sleep which she had not done for several days. The son was much pleased with the relief it gave his mother that he has since recommended it to many others. For sale by Day Bros. Co.

In the case of Schuster against Taulbee in the Federal Court at Covington before Judge Cochran, the plaintiff was awarded a writ of injunction against the defendant enjoining him from removing timber from a large tract of land on the waters of Quicksand in this county. Schuster is represented by Attorney J. J. C. Bach, of this city. Mr. Taulbee is represented by Judge Gourley, of Beattyville.

A Good Judge.

Judge Riddell finished his first term of court under the new administration at Canipton this week. He will begin his term at Salyersville next Monday. The Judge knows how to do business and is doing it in the proper way.

Mrs. George Shearer a widow, of Ridgwood Junction, has five children in her family ill of measles.

THE HAZARD BAPTIST INSTITUTE

will open
JANUARY 4, 1904.

We hope to have our new building ready by this time. It will be an elegant building, consisting of five well furnished rooms, two halls and an office. The faculty will consist of

Five First Class Teachers

Special attention will be given to the preparation of teachers for their noble work, while other departments will not be neglected. Beyond the Common School Branches, the following subjects will be taught. Mathematics, to and including first part of Trigonometry, English, up to Logic, General History of American Politics, Physical Geography, Moral Science, Psychology, Music, Etc.

Tuition, Per Month, From.....\$1 to \$2
Board, Including Fuel, Lights, Etc.,.....\$1.75 to \$2

For further particulars, call on or address

A CHEAP POULTRY HOUSE.

Not a Handsome House, but it is Convenient and Comfortable.

A writer in the American Poultry Journal gives the following description of a cheap poultry house:

"The building is 10 by 20 feet, 9 feet front, 5 feet back. It stands on a sloping piece of ground in the orchard, where all our poultry buildings are located. The floor is made of crushed stone, coal ashes, clay and sand. Two inches of top of this to keep a liberal supply of wheat straw for litter during the winter months. We have no partitions in this house, as we have other suitable buildings to use during the breeding season. The dropping boards are five feet wide, twenty feet long and three feet from the floor.

"The roosting poles are made in sections, four poles each foot long to the section, securely nailed at the end with two inch strips. These roosts are just laid on four cross-pieces, with notches cut out of the cross-pieces to admit each pole so as to make it solid, yet it can be lifted and taken clear out of the building if desired or can be swung to the rafters when cleaning. We sheathed this house before weather boarding with a good grade of two ply roofing paper. We gave the paper about two inches of a nap, then on the inside we covered this nap with plastering lath to try to make it wind proof. It is a shed roof sheathed solid with oak boards, and on this we put the best three ply roofing we could find. On top of this we placed strips eighteen inches apart from the comb down to the eave. This was to keep the wind from getting under it and blowing from tearing it off. As soon as the roof was completed we gave it a painting. There are four windows or eight cashes in this house—four below, ten inches from the floor, and four above, twenty inches above the first four.

"Our reason for dividing the windows was to admit sunshine on the dropping boards and floor at the same time. This house is weather boarded with a No. 1 grade of oak, which was purchased at \$3 per 100 feet. A strict account was kept of material purchased for this structure, and when completed, not counting the labor, as we did that ourselves, the building cost just about \$30, or \$1 per running foot. We do not submit this as a model house, but it is good enough for us for the present—nothing handsome about it, just warm and comfortable, that is all."

To Break Up Sitters.
The means of preventing a hen from sitting seem like a very humble problem to occupy the thrifling brain of an inventor, but the matter has been recently attacked by a genius of British Honduras who is so sure that he has found the solution of this mighty matter that he has gone to the trouble of causing an patent papers in this and

HINTS FOR FARMERS

The Farmer's Education.

Not only an education, but a training, have more of an education than simply his experience. This might have been said fifty years ago or even twenty years ago, but it is inadequate now with changed conditions. Of course it is out of the question for the average established farmer to give up his business and take a college course. There are other ways to secure a scientific and up-to-date agricultural education. First of all are agricultural papers, experiment station bulletins and agricultural books. These are within the reach of all and contain the latest and best science and practice. Then there are the farmers' institutes, grange and farmers' club meetings. The information secured at these has the recommendation of coming from first hands and is not to be easily forgotten. In addition the midwinter corn and stockmen's conventions at agricultural colleges, where the scientist and practical man come together, are too valuable to be neglected. With such sources of information there is little excuse for the modern farmer being ignorant of the best methods.—American Agriculturist.

Improvement Through Selection.

Every farmer can if he will improve his seeds of all kinds by careful selection and cultivation and by taking advantage of natural variation with as much certainty as he can by a similar process improve his live stock. Take cotton, for example, and go into the field and find a prolific stalk that meets as nearly as possible the desired characteristics, select a few of the best bolls from this stalk, save the seed and plant at a distance from any other cotton and cultivate carefully. When this cotton matures select the best bolls from the best stalks and repeat the operation. Using the seed from all this patch for the general crop, and the selected seed from selected bolls use only for the seed breeding patch. A similar process will produce similar results with any other field crop. In the case of garden vegetables simply select the best seed from the best plant in the garden for the next season's planting. In this way there is no end to the improvement that can be wrought in the years to come. The effect, however, will be apparent the first season the selected seed is used.

A Few Reminders.

Don't quarrel with the weather. Don't think "any old way" is all right; it isn't. The best way for cracked hands during cold weather is prevention. Wear leather gloves when doing outside work. Frozen grass contains but little nourishment. It is filling but not fattening. Grow fat on it, three times a feed at the barn on good hay and grain before turning them out for exercise.

One of the crying needs of the average farmer is to provide waterproof receptacles for both liquid and solid manure. See that every particle possible of manure is saved and stored for time of use. Replace every bolt on the carriage that has been broken. Also it is wise to replace all the nuts that have rattled from the carriage and wagon bolts, the sleighs and the bedsteads. The man who keeps a stock of such nuts and bolts to go with them is sensible.

Low Bridges For Planters.

At the Arkansas experiment station the highest yield of sweetpotatoes per acre was secured with ridges three inches high. The same method also gave the smallest per cent of culls. Expert potato growers no longer pile the earth up to the plants in ridges six inches above the bottom of the furrow by the side of it. It is held by some that level culture is even better than three inch ridges. The land should be deeply plowed, and deep furrows should be made in the level ground and the seed deposited at the bottom of the furrow. Then, when covered, the ground will be level and the seed covered to a sufficient depth. After this frequent shallow cultivation is all that is needed, as it retains moisture and weeds the weeds.

Wheat to Beat Out Manure.

The old question of the best season for hauling out manure is of more importance to many farmers than the building of the Panama canal. It is hard for some men to believe that the manure is safe outside of the barnyard. Such men have it there and crowd all the work of hauling into the spring season, when other work is pressing. They would get just as much out of their manure and do the work of hauling cheaper if they would haul every day or work as fast as a load is ready. On a level soil manure can safely be spread at any time. Even on a slope the manure can be left in piles through the winter with little if any loss. It is good economy to get this part of the "spring work" done before spring opens.—Rural New Yorker.

Satisfactory Assessment Plan.

New Zealand farmers are given the privilege of placing their own valuation on their farms for the purpose of taxation, which some would regard as a snap work this privilege not coupled with the right reserved by the government to buy the man's land any time within twelve months of the time of making the assessment at 10 per cent above the valuation placed upon the land. This plan, it is said, secures a very satisfactory assessment.

The House of Redtop.

The little lands along the creeks tributary to the Little Washita river in southern Illinois seem best adapted to the growth of the seed of redtop grass. This small strip of country sent last year to the market 75 per cent of the entire redtop seed crop of the United States, and the growers received no less than \$200,000.

Croup.

The peculiar cough which indicates croup, is usually well known to the mother of croupy children. No time should be lost in the treatment of it and for this purpose no medicine has received more universal approval than Chamberlain's Cough Remedy. Do not waste valuable time in experimenting with untried remedies, no matter how highly they may be recommended, but give this medicine as directed and all symptoms of croup will quickly disappear. For sale by Day Bros. Co.

FOR THE HOUSEWIFE

How to Apply Enamel.

Not only articles of furniture may be renewed and beautified by the application of enamel. It dries quickly. If applied in the morning the article will be dry by night. It gives a fine gloss and is sanitary and easily cleaned. When enameled a room now wood should be painted with white enamel or white lead reduced with turpentine, which somewhat lessens the cost. When this is hard and dry apply one coat of enamel. A second coat applied after the first has become hard and dry will produce a fine finish.

Woodwork previously painted should first be washed with soap and water, using a little soda, borax or ammonia to soften and remove the old paint. Then apply one or two coats of enamel.

A enameled wall should be washed or scraped off. An old wall that is simply soiled in spots should be well cleaned and the spots washed with soda and water to remove grease. Then apply with a thin coat of size made by dissolving a little good glue in boiling water. It is best to apply the size while it is warm. Do not leave spots uncleaned, as if you do the paint will not dry evenly. Then apply one or two coats of white inside paint. When this is dry apply the enamel. On small articles previous painting will not be necessary.

Paper Hotties For Servants.

No more will the hostess sigh over seeing her most cherished lace and embroidery ruined by fruit and chocolate stains. She may now indulge in all the dainty necessities of the table without a qualm as to their being stained, says the Chicago Chronicle. The reason for this is that everything in the shape of dollies, casseroles, fruit and chocolate cups is now made of paper. They are as dainty as possible and are made to imitate the beautiful Tennessee work, Mexican drawn work and all lace patterns in the most wonderful manner. Despite their fragile appearance they are proof against liquids and do not get soggy. Salad and ice cream cases come in a variety of pleasing forms, and it is possible to carry out a color scheme with but trifling expense.

Stair Carpet Fastener.

Despite the craze that during the last few years has overrun the eastern section of the United States for oil or

FASTENED AND WAY IT WORKS.

stained uncarpeted stairways the vast still a multitude of housekeepers who adhere to the cozy, old-fashioned stair carpet. To all such the invention of an improved form of fastener is a matter of interest. A Philadelphia inventor has perfected a fastener that engages the carpet at the top and bottom of both sides of the riser, the device being quickly and easily placed in position and removed therefrom. It consists of two outwardly flaring resilient arms, of wire or other material, locked together securely at the center by a metallic rod and pointed at each extremity. By pressure, the arms together they can be placed beneath the ledge of one of the steps, and when released the points of one pair of said arms will engage with the carpet beneath the ledge and, if desired, enter the wood work, and similarly the other pair will engage with the stair tread. The carpet can therefore be held fast and securely in place and yet be readily taken up on occasion.

Batted Chickens Stuffed With Onions.

Clean and trim the fowl as for roasting; fill the inside with small white onions (celery stalks) that have been parboiled in a quart of milk. Put the giblets on to boil with a small onion and two or three slices of bacon or a little raw ham. When giblets are done strain the gravy into a saucepan then should be at least a pint, put it into a saucepan with the chicken, cover and simmer until quite tender. Put three large onions in the quart of milk and parboil the chicken. When it is removed from the milk, wash with hot water and flour rubbed to a smooth paste. Season with salt and pepper and let it cook until it thickens. Pour this over the fowl when it is arranged on the platter and serve.

To Clean an Oil Painting.

Raw potato is good for cleaning up an oil painting. Put a potato in two and rub quickly over the surface of the painting with it. When it shows soft take a fresh potato. When a soft silk handkerchief. It is a good plan to clean only a small section of the painting at a time, then wipe it off and go on to a fresh part. Sweet oil, if lightly and quickly applied, would clean a painting satisfactorily.

Vinegar For Stockings.

It is recommended that a little vinegar be added to the water in which stockings are rinsed after being washed. The stockings should then be dried wrong side out. Colored stockings will be found much brighter and black ones will retain original luster.

A Bargain For Some One.

A nice small farm in Lancaster for sale. The Larkin Stamp place, on the head of Bear Creek. Nice dwelling, good barns, sheds, and barn, near failing water, well fenced. Price reasonable and terms easy. For particulars apply to SAMUEL T. Winchester, Ky.

Bargain For Farmers.

The New-York Tribune Farmer, a national illustrated agricultural week-

THE SUNDAY SCHOOL

LESSON V, FIRST QUARTER, INTERNATIONAL SERIES, JAN. 31.

Text of the Lesson, Luke v. 1-11. Memory Verses, Luke v. 1-11. Commentary Prepared by Rev. B. M. Stearns.

Copyright, 1904, by American Press Association. Today's lesson tells of several disciples who left all to follow Jesus. It would seem from John 1, 40-51, that Andrew and Simon, Philip and Nathanael had already begun to follow him, but evidently not to the extent of forsaking all to follow him fully.

After the people of Nazareth drove him out of the temple, Jesus went about Galilee teaching, preaching and healing all manner of sickness and disease (Matt. ix, 35, 36). It would seem from Matt. ix, 18-23; Mark 1, 16-20, that Simon and Andrew took a step further in following him that morning in John 1, and that James and John heartily joined them.

On that occasion Simon and Andrew were casting a net into the sea, while James and John were in the ship with their father mending their nets. In our lesson today the fishermen had gone out of their ships and were washing their nets. There is no need to try to reconcile the records. Let them stand as records of different events. In the former is a series of separations from sin and self and the world to become more wholly the Lord's for his service. According to gospel harmonies it is probable that the sermon on the mount (Matt. v, 7) came in between the last lesson and this one, but the order of events is not of so much importance as becoming better acquainted with God through Jesus Christ. As we see him standing by the lake of Gennesaret, the son of Galilee, we remember that he made it and every living thing in it, the river that flows through it, the hills that surround it; for him things were made by him and for him (Col. 1, 16; Heb. 1, 3; John 1, 3).

The people see that the speaker is never more than a man, and they crowd around him to receive the living bread and living water which are in him. That he may separate a little from the crowd and thus be better able to teach them, he steps into Simon's boat and asks him to push out a little from the land, and sitting down, he taught them out of the boat. We may safely conclude that he taught them out of the Scriptures the things of the kingdom and the things concerning himself, and that this word was with power, and that some believed, and some believed not; for the disciples taught that the seed always falls on wayside, rocky, thorny and good ground. Blessed are all who receive the word with meekness (1 Th. 2, 13). Having used Simon's boat as a pulpit, he will reward him for the loan of it, and so he told him to launch out into the deep and let down his nets for a draught. No one ever suffered loss by giving attention to the special work of Christ, but multitudes have been blessed for time and eternity by obeying Matt. vi, 33. If we use to the word he will use all our need better than we could.

There were plenty of fish in the sea and they were never more than a man, and they crowd around him to receive the living bread and living water which are in him. That he may separate a little from the crowd and thus be better able to teach them, he steps into Simon's boat and asks him to push out a little from the land, and sitting down, he taught them out of the boat. If we use to the word he will use all our need better than we could.

There were plenty of fish in the sea and they were never more than a man, and they crowd around him to receive the living bread and living water which are in him. That he may separate a little from the crowd and thus be better able to teach them, he steps into Simon's boat and asks him to push out a little from the land, and sitting down, he taught them out of the boat. We may safely conclude that he taught them out of the Scriptures the things of the kingdom and the things concerning himself, and that this word was with power, and that some believed, and some believed not; for the disciples taught that the seed always falls on wayside, rocky, thorny and good ground. Blessed are all who receive the word with meekness (1 Th. 2, 13). Having used Simon's boat as a pulpit, he will reward him for the loan of it, and so he told him to launch out into the deep and let down his nets for a draught. No one ever suffered loss by giving attention to the special work of Christ, but multitudes have been blessed for time and eternity by obeying Matt. vi, 33. If we use to the word he will use all our need better than we could.
